peaceedogun@gmail.com | [LinkedIn](#) | [Portfolio](#)

EDUCATION

B.A. International Studies and Diplomacy

University of Benin, Nigeria - GPA: 3.72 (Second Class Upper Division)

Relevant coursework: International Trade, Policy Analysis, Research Methods

RESEARCH INTERESTS

Sustainable supply chain management, with emphasis on integrating data analytics, trade policy, and ESG principles. Motivated to apply forecasting, optimization, and automation tools to enhance procurement efficiency and promote sustainable global operations.

LEADERSHIP IMPACT

- Recovered 20% supplier overcharges and saved 120+ staff hours/month through procurement automation at Triple E Medical, advancing transparency and efficiency
- Trained and mentored junior analysts, raising organizational data literacy and fostering inclusive workplace growth.
- Published thought pieces on climate agreements and ESG trade policy, contributing to public debate on sustainability and international cooperation.

ARTICLE & PRESENTATION

- The U.S. Decision to Withdraw from the Paris Agreement in 2025: What It Means for the World. *(Article - [LinkedIn](#))*.
- International Trade, ESG, and Sustainability. *(Presentation - [Render](#))*

SELECTED PROJECTS

Supplier Debit Note Automation System (Triple E Medical) - Automated reconciliation of supplier overcharges, improving procurement transparency and recovering 20% of excess costs. *(Live Demo - [Render](#))*

Rent Price Prediction Web App - Deployed ML model forecasting rents, enhancing market transparency and decision-making. *(Live Demo - [Render](#))*

Hotel Guest Cancellation Prediction Dashboard - Built predictive tool reducing cancellations and supporting efficient resource planning. *(Live Demo - [Render](#))*

Jupyter Notebook Analyses (Python & SQL) - Examined growth, market capitalization, and trade flows to inform policy and economic insights *(Notebook - [Render](#))*

PROFESSIONAL EXPERIENCE

Head Data Analyst | Triple E Medical (May 2023 – Feb 2025)

- Designed and deployed debit note automation, improving procurement accuracy and financial accountability.
- Built dashboards for supplier performance, sales trends, and product availability, driving evidence-based supply decisions.
- Partnered with finance/procurement teams to ensure data integrity for audits and negotiations.

Data Analyst | Puljet Konsult (Sept 2022 – Mar 2023)

- Developed Tableau dashboards for KPI monitoring, enabling real-time operational decision-making.
- Applied predictive analytics to optimize resource allocation, reducing costs by 15%.
- Evaluated training programs statistically, strengthening efficiency in resource use.

Senior Data Analyst | All Seasons Zenith (Nov 2017 – May 2022)

- Led company-wide analytics initiatives, informing strategic supply and market positioning.
- Directed consumer and market trend analysis, shaping resource allocation and product positioning.
- Standardized data processes and mentored junior analysts, improving organizational data literacy.

SKILLS

- Quantitative & Analytical Tools: Python (Pandas, NumPy, Scikit-learn, TensorFlow), SQL, Excel
- Visualization & BI: Tableau, PowerBI, Looker, Matplotlib, Seaborn
- Supply Chain Applications: Forecasting, Optimization, Procurement Automation, Inventory Analytics
- Research & Communication: Academic writing, data storytelling, sustainability analysis, policy evaluation

CERTIFICATIONS

- Google Data Analytics Professional Certificate
- Machine Learning Engineering for Production (MLOps)
